## OUTLOOK AND STRATEGY

**Market Review.** The Philippine Stock Exchange (PSEi) skyrocketed to end the year on a high note, finishing by 3.7% MoM and 25.1% YTD to close at 8,558.42. The main catalyst was the enactment of the TRAIN (Tax Reform for Acceleration and Inclusion Act) following a series of amendments from the Congress, Senate and a number of provisional vetoes from the President himself. This certainly boosted sentiment as it is expected to generate roughly Php90 billion in net revenues than can support the Government's "Build, build, build program". As expected due to seasonality, market activity was muted with Daily Turnover only averaging Php6.052 billion in December. Likewise, foreigners were net buyers at US\$55.4 million raising the year 2017 tally to US\$1.1 billion.

Top gainers for the month include URC (+13.53%), GTCAP (+12.35%) and BDO (+12.33%) while detractors were RLC (-6.99%), PCOR (-4.48%) and DMC (-4.26%).

**Fund Performance.** The Fund registered a return of 3.63% for the month of December, underperforming the benchmark by 6 bps. Year-to-date, the Fund registered 24.56% underperforming the benchmark by 55 bps.

**Fund Strategy.** The Fund will continue to track the performance of the Philippine Stock Exchange Composite Index (PSEi).
